

**DIRECTIONS TO DOE/NETL (Pittsburgh Office) FROM  
THE PITTSBURGH INTERNATIONAL AIRPORT**

(Depending upon the time of day, i.e., rush hour, please allow 50 minutes to an hour of travel time.)

1. Exit the airport and follow the signs for **Pittsburgh**, which will take you onto **Route 60 South**.
2. Route 60 becomes Route 22-30 -- also known as I-279 the "Parkway West."
3. Stay on Route 22-30/I-279 the "Parkway West" until you reach **Exit 5B**, labeled **Truck Route 19 South/Route 51 South, Uniontown**. **Note:** This exit is on the far right just **before** the Fort Pitt Tunnel -- do not go into the Tunnel.
4. You will continue down **Route 51 South** for approximately 7.5 miles.
5. After the 7.5 miles, look for a **CVS Pharmacy** on the right-hand side of the road. **Slow Down** since you will soon be exiting off Route 51 South at the Cloverleaf.

After passing CVS, ~0.25 miles, take the very first road to your right -- this is a Cloverleaf Exit (before the exit, you will pass under an old railroad trestle, the exit is a few feet beyond -- you should also see a green highway sign with an arrow pointing right indicating "South Park"). If you have gone over the overpass, you have gone too far -- you will need to turn around and try again.

6. Upon exiting the Cloverleaf, you will now be on Curry Hollow Road.
7. When on Curry Hollow, you will go through 7 traffic lights. After the 5th traffic light (the Jefferson Memorial Cemetery will be on your left), you want to get into the **left-hand lane**.
8. At the bottom of the hill (7th traffic light and after 1.5 miles), you will be at a 3-way intersection -- you will see two brown signs with arrows pointing left, one indicating "Bruceton Research Center" and the other "South Park." Proceed in the **left-hand lane** onto Brownsville Road (toward the Bruceton Research Center) -- the Nativity Church and School will be on your right.
9. **Stay in the left-hand lane.** Brownsville Road becomes Cochrans Mill Road **after the first stop sign**. After driving 2.0 miles, the DOE/NETL (Pittsburgh Office) entrance is on Cochrans Mill Road (right-hand side -- you will see a sign for the Bruceton Research Center).
10. Make the right-hand turn into the Bruceton Research Center. Go to the Main Gate (Guardhouse) to receive directions to DOE/NETL's Guardhouse (Security) for either Building 923 or Building 95. Upon arriving at the appropriate Guardhouse, you will sign-in and -out, receive a visitor's badge along with a temporary parking tag for your vehicle, and receive directions for the person you will be visiting.

**Note:** If you want the 920 plateau (Buildings 920, 921, and 922), you will go past the main entrance (Main Gate) to Wallace Road, which is the next right-hand turn (stop sign) after the main entrance -- approximately 1000 yards. When turning onto Wallace Road -- do so cautiously -- oncoming traffic does not have a stop sign. Stay on Wallace Road, cross over the railroad tracks -- cautiously -- and half way up the hill make a left-hand turn at the first DOE sign you see. Go to the top of the hill and stop at Building 923 (Security) where you will sign-in and -out, receive a visitor's badge along with a temporary parking tag for your vehicle, and receive directions for the person you will be visiting.
